3. Highways in the Huiyang (114-26, 23-05) Area

<u>Terminal</u>	<u>Mileage in Km</u>	<u>Passenger Fares</u>	<u>Freight Charges</u>
Changmutou (114-06, 22-53)	46	CN \$43 per kg.	---
Pingshan	40	CN \$25 per kg.	CN \$2000 per picul

Remarks:

- The Huiyang-Changmutou Line is operated for the main purpose of joint transportation of passengers and freight from the Canton-Kowloon Railway. This line is owned by the Wing Lun Tong in the Tungshan District.
- The Huiyang-Pingshan Line was repaired by the Ping Man Bus Company. Eighty-five percent of the highway is in good condition while the rest still needs repairs.
- The Pingshan-Lanshan Line is used for transportation of salt and sea-products from Pingshan.

4. Highways from Hoyuan to Hsingning

- The section between Hoyuan (114-48, 23-42) and Laolungssu (115-20, 24-03) is 107 kilometers long. This section was greatly used when merchants were transporting cotton yarns from Shanghai to Canton and Hongkong in April. Traffic in this section stopped after the sea route between Shanghai and Hongkong was recovered.
- The section between Hoyuan and Puchien (114-42, 23-34) has been completely repaired.
- There are more than ten public vehicles running daily between Laolungssu and Hsingning, and a few between Hengyang (112-35, 26-06), Chuchi (120-13, 29-44), and Chuchiang (113-33, 24-50). From Laolungssu to Hsingning, the fare is CN \$1200 and the freight is CN \$900 to CN \$1300 per picul for the sixty-three kilometers.

~~CONFIDENTIAL~~6. Hsingning - Swatow Highway

- a. The length of the Hsingning (115-49, 24-04) - Swatow Highway is 181 KM. As the road is only partially repaired, the only vehicles running are freight trucks. These trucks will carry passengers at the rate of CN\$10,000 per fare plus CN\$100 for each catty of baggage.
- b. The best section of this highway is between Hsingning and Shuikouhsu (115-58, 23-59) / Shuikou (115-54, 23-54) 2/, which is twenty-nine KM long. In the section from Fengshun (116-13, 23-56), approximately forty KM of the highway is covered with cinders. Beyond Fengshun the farmers have dug ditches of several inches width for irrigation of fields. The trucks carry long wooden boards to cross these tunnels. This procedure causes much delay and in districts where these trucks are numerous, they travel only about ten KM per hour.
- c. All bridges along the line are makeshift. Between Shuikou and Tangkang, a distance of 72 KM, there are more than ten bridges which are still unrepaired; in dry weather the trucks crawl over the dried river beds, but on rainy days the road becomes impassable.
- d. The road between Chichyang (116-20, 23-32) and Swatow (60 KM) was thoroughly destroyed by the Japanese. The road is being used but repairs are needed; it takes at least one day to make the trip.

7. Highway from Swatow to Chaoan

This highway (38 KM) is built on the former foundation of the Swatow to Chaoan (116-37, 32-42) Railway and is still owned by the S. C. Railway Company. It owns about eleven trucks operating twelve round-trips daily. The fare from Swatow to Chaoan is CN\$2250 and from Chaoan to Swatow CN\$1150.

8. Highway from Swatow to Changlin

This highway (32 KM) is still in good repair but is divided by three big bridgeless rivers. In pre-war days, the Swatow-Changling Company had more than thirty trucks in operation. Now it has only five trucks and maintains transportation of 14 KM from Swatow to Weisha Village.

9. Highway between Leikou (near Swatow), Chaoyang and Hoshan

This road (76 KM) is part of the Provincial Seacoast Highway. This section has been repaired but there are only eight trucks operating along this line.
